Ferrari and Maserati of San Francisco

March 14, 2009

Dear Mr.

We have been reviewing our records and found that we haven't had the privilege of servicing your Ferrari in more than 3 years. Regular maintenance by an authorized Ferrari dealer is critical to the proper operation of your vehicle.

There have been several important management changes in our service department since your last visit. Our Service Manager, Gino Potter, has been with us for 1½ years and brings a wealth of experience from other luxury brands. Our new Service Advisor, Steve Erickson, has been with us for almost a year. Steve also has vast experience with other luxury brands. Although some employees have changed, you will still find many of the same, friendly faces. Our Shop Foreman, John Heim, with more than 13 years of experience in our service department, remains dedicated to his Ferrari passion along with Dave Hellmann our Parts Manager.

We are planning a free Owner Appreciation Clinic for late spring and would enjoy seeing you and your car. During the clinic you will have the opportunity to meet with the members of our service team. You will also have the opportunity to have your car examined and road tested by one of our factory certified technicians. A review of our findings will follow along with the opportunity to discuss your Ferrari's condition and any aspect of your ownership experience. While you are waiting for your car to be inspected, light food and refreshments will be provided along with test drives in the latest Maserati models and a selection of Ferraris, classic and contemporary, for your viewing pleasure. Staff will also be available to answer any questions you may have regarding Ferrari's Power Warranty and Classic Program.

Please take a moment to complete and return the enclosed response card in the postage paid envelope provided letting us know if you still own your vehicle and if you would have interest in attending our free Owner Appreciation Clinic.

We would also like to remind you that the Ferrari Challenge is once again coming to Infineon Raceway from Friday, May 1st through Sunday, May 3rd. In conjunction with the Ferrari Challenge weekend, we are planning a road rally on Sunday, May 3rd in support of the Bronte Epilepsy Research Foundation and would love to have you join us for this fun and rewarding event. More information on the rally can be found at the dedicated website <http://rally.bronteepilepsyresearch.org/>. Additional details on the Ferrari Challenge can be found at <http://www.ferrarichallenge.com/>.

We look forward to seeing you at our clinic and the Challenge weekend at Infineon.

Best regards,

Richard Sherbert

To: i i
From: Gino Potter
Re: Authorization for repairs to Ferrari 328 GTS, VIN #G0060667

Dear I

Please find attached copies of service invoice numbers 65669, and 65670. There are two invoices as I must separate warranty and maintenance repairs. Please review both invoices to ensure I have listed all your complaints fully and correctly. In order to begin repairs I will require your authorization in the lower left bottom corner of each invoice. After you have signed, please email the signed copies or fax them back to my attention at 415-526-2170. If you have any questions, please do not hesitate to contact me. My goal is to complete the car by the 15th of May; of course this could possibly change depending on our findings once we begin repairs. I will do my best and keep you posted.

Kindest regards,

Gino Potter

				MO: 42013

CHARGE A/C SYSTEM AND LEAK-CHECK: NO LEAKS FOUND. SYSTEM WAS CHARGED MORE THAN 2 YEARS AGO, SO LEAKAGE IS VERY SMALL AND CANNOT BE LOCATED. POSSIBLY PAST ORIGINAL NON-VITON O-RINGS USED THROUGH-OUT SYSTEM. CHECK A/C SYSTEM FUNCTION: GETS COLD AND WORKS WELL, BUT HIGH SIDE PRESSURE GETS TOO HIGH 250PSI+. A/C CONDENSOR FAN IS NOT COMING ON. TRACE CAUSE TO TEMPERATURE SWITCH LOOSE AT CONDENSOR OUTLET PIPE AND POOR GROUND CONNECTION AT CONDENSOR FAN MOTOR. SECURE TEMPERATURE SWITCH TO CONDENSOR PIPE, AND REPLACE CORRODED GROUND CONNECTOR AT CONDENSOR FAN MOTOR. CHECK FUNCTION OF A/C CONDENSOR FAN MOTOR: GOOD, CYCLES ON/OFF AS IT SHOULD. NOTE: A/C SHOULD BE USED ONCE A MONTH IN ORDER TO KEEP FRONT SEAL ON A/C COMPRESSOR LUBRICATED, WHICH KEEPS IT FROM LEAKING.
